Kernel._.Crew — who owns what

Each module is one command table. The two merged modules did not require any change to each other's code.

MODULE	HANDBOOK	CONCEPT	OWNER	STATUS
M1	Ch 3	/proc — system, cpu, top	**Anvitha**	**MERGED**
M2	Ch 4	run, processes	**Srujana**	**MERGED**
M3	Ch 5	pipes and IPC — submit		UPCOMING
M4	Ch 6–7	threads, race conditions	**Aarnavi · Advik Krishna**	UPCOMING
M5	Ch 7–8	semaphores, queue, xv6		UPCOMING

Figure 6 — Module ownership and project status. Modules 3–5 attach through the same one-line mechanism Module 2 used, with no change to any existing file.
